

How to Convert Videos on Your Computer to .FLV (Flash Video Files) for SMART Notebook 11

STEP 1: Go to www.zamzar.com ⇒ Scroll to the bottom of the screen, and then follow the prompts listed below.

The screenshot shows the Zamzar conversion interface with four steps and corresponding instructions:

- Step 1:** Select files or [URL](#) to convert (up to 100MB - [want more ?](#)). Instruction: Click **Browse** ⇒ Search for and select the video you want to convert.
- Step 2:** Choose the format to convert to: Convert file(s) to: [dropdown menu]. Instruction: Use the drop-down menu to select **flv** as the video format.
- Step 3:** Enter your email address to receive converted files: [input field]. Instruction: Enter your email address.
- Step 4:** Convert (by clicking you agree to our [Terms](#)). Instruction: Click **convert**.

STEP 2: Wait for the video to upload before closing your internet browser.

Files to convert:

The screenshot shows the file upload progress bar with the text "Uploading - Please wait ..." and a "Share" button with a "Tweet" link. A red arrow points to the progress bar.

This is the screen you will see while the video is uploading. If you close your internet browser during the upload process, it will not be processed.

File upload complete

Your file has successfully finished uploading !
We'll now convert your file - As soon as this is done we'll email you to let you know where you can download your file from.
[Why not signup for a Zamzar inbox to manage your files ?](#)
Your converted file will be stored for **24 hours** from the time you receive your email from us ([want longer ?](#))

This is the screen you will see when the file upload is complete!

Step 3: Check your email. Zamzar will email you when the file has been converted. You will then have 24 hours to download the file from their server via the link provided in the email. If you do not download the file within 24 hours, you will need to repeat the process.

- *Sometimes the files come quickly (1-3 minutes), and sometimes it can take up to 1-2 hours. It all depends on how many people are converting files at one time.*
